

## Aloha

Welcome to the islands of Hawaii.

The friendly people there will adorn you with a "lei" made up of beautiful tropical flowers from one of the wettest places on earth.

Come and explore volcanoes, lava, sandy beaches and coral, and the many colorful fish that we see underwater.

Come discover the tradewinds and warm, humid air. Learn all about Hawaii's highest peaks to its many valleys full of pineapple, sugar cane, and coffee plantation.

A Montessori Routine will maintain a consistent order and routine in the child's environment. Our Montessori trained staff works hard to create a Montessori program enriched with our special "Hawaii" unit as well as Friday Splash Day, art and music activities. We encourage our new students to start in summer to acclimate to the program smoothly.
